Do you support returning to the classroom for in-person instruction when we are eligible, based on the California Department of Public Health guide...that option for the remainder of the school year.

2,620 responses

- Yes, I believe we can safely return to classrooms and my child would return to the physical school campus when allowed to do so.
- No, I think it's too soon and my child would continue with distance learning.

Would you be able to get your child to physical school if transportation by a school bus is not feasible because of the 6 foot distancing requirement?
