

Amador County Office of Education
INSTRUCTIONAL AIDE HEALTH / MEDICALLY FRAGILE
DEFINITION

Under the supervision of the program administrator and the direction of a specific certificated staff member, performs the necessary duties to assist in the planning and implementation of a program for special needs children in classrooms. Under the indirect supervision of the nurse and direction of a specific certificated staff member will perform specialized health care procedures as directed by the school nurse.

PRIMARY DUTIES AND RESPONSIBILITIES

- Assist in planning and implementing suitable learning experiences for students.
- Help students develop positive interpersonal relationships with peers and adults.
- Supervises and/or participates in playground activities.
- Assists in the observation and recording of student development and progress.
- Assists in preparing, monitoring, and cleaning up program facilities.
- Operates equipment necessary to program operation.
- Does clerical tasks, e.g. attendance reports, lunch count, and data keeping.
- Functions as an appropriate, positive role model.
- Attends required staff meetings and in-service training.
- Assists in the preparation and maintenance of instruction materials.
- Assists in the supervision of students at assigned tasks in and out of the classroom during normal duty hours.
- May assist students with personal needs, i.e. feeding, toileting, ambulation.
- May participate in I.E.P.T. meetings.
- Provides necessary physical care and emotional support.
- Displays calmness and control while dealing with behavioral problems and restraining “tantrumming behavior.”
- Does related work as required by job-specific position.
- Provides non-routine specialized health care needs which do not require a health/instructional aide; i.e., toileting, administration of epi pen (bee sting) and monitorization of reaction and anaphylactic reaction procedure, hyper or hypoglycerine care for a diabetic (i.e. administration of juice or sugar substitute), assisting when a student has a seizure. Training will be provided as needed.
- Provides routine specialized health care procedures as trained and as necessary which would necessitate a health instructional aide not requiring direct supervision. This will include catheterizations, blood glucose testing for diabetes, gastrostomy tube feedings, ostomy care, oxygen, tracheostomy care, and other procedures as defined and written by the physician.
