

Scenario 1- Symptom Card

(Enter School Name and/or logo)

Student Name: _____

Your child has been sent home due to the following COVID-19 symptom/s:

More Common COVID-19 Symptoms

- Fever (100.4°F/ 38°C or higher)
- New onset and/ or worsening cough
- Shortness of breath or difficulty breathing
- New loss of taste or smell

❖ *If your child is showing symptoms in the “More Common” category, they will need to be tested for COVID-19 or stay home for 10 days (Test or 10).*

Less Common COVID-19 Symptoms

- New onset of severe headache
- Diarrhea
- Nausea
- Vomiting
- New onset of stuffy/runny nose (different from pre-existing allergies)
- Muscle Pain
- Unusually tired, lethargic or “low-energy”
- Chills
- Sore throat

❖ *If your child has one symptom in the “Less Common” category that lasts less than 24 hours, they may return to school 24 hours after the one “Less Common” symptom resolves (48 hours if they had diarrhea).*

❖ *If your child has 2 or more “less common” symptoms or symptoms that last more than 24 hours, keep your child home and contact your child’s healthcare provider to determine if testing for COVID-19 is indicated. A negative COVID-19 test, an alternate diagnosis from a medical provider in writing, or at least 10 days have passed since symptoms started will be required in order to return to school.*

If you have any questions/concerns, please contact the school nurse at 209-257-5427.
